TIME AND SPACE

are practically annihilated by the ocean cables and land telegraph systems which now belt the circumference of Old Earth in

so many different directions. "Foreign parts" are no longer foreign in the old meaning of the term. Europe, Africa, Asia, are "next door" to us. What happens there to-day we know to-morrow—if we read THE CHICAGO RECORD, whose Special Cable Correspondents are located in every important city in the world outside of the United States. No other American newspaper ever attempted so extensive a service; and it is supplemented by the regular foreign news service of The Associated Press. For accurate intelligence of the stirring events which are shaking the nations—of wars and rumors of wars—of the threatening dissolution of old governments and the establishment of new—of the onward sweep of the race in all parts of the world—the one medium of the most satisfactory information is the enterprising, "up-to-date" American newspaper, THE CHICAGO RECORD.

FREE

A large map of the world on Mercator's Projection, about 23x16 inches in size, beautifully printed in colors, with a large-scale map of Europe on the reverse side, will be mailed to any address free of charge on receipt of request accompanied by two 2-cent stamps to cover postage and wrapping. The map illustrates clearly how comprehensively the special cable service of THE CHICAGO RECORD covers the entire civilized world. Address THE CHICAGO RECORD, 181 Madison street, Chicago.
